Introducing.....The Sartorius, Picus® Electronic Pipette

www.lennox.ie

Picus® Electronic Pipette

The Most Sophisticated and Ergonomic Pipette Ever!

Enjoy your work with the award winning Picus®! Its highly sophisticated and completely ergonomic design will reduce your risk of repetitive strain injury (RSI). Fully electronic operation ensures the maximum accuracy and repeatability of your results.

Its superior technology, electronic brake and piston control system ensure accurate and precise pipetting results, independently of the particular user. By guiding pipetting steps, the unique plate tracker increases reliability in correctly filling microwell plates. The pipette's repetitive blow-out function facilitates dispensing of the very last droplets of your sample, even of viscous liquids, for example.

Features & Benefits:

- Lightest and smallest electronic pipette ensures an optimal working posture and comfortable pipetting
- Effortless, electronic tip ejection
- New generation technology – the electronic brake and piston control system guarantee accurate and precise pipetting results
- Hot key - fast access to your favourite programs, easing routine work
- Autoclavable lower parts (except for 1200µl multi- channel lower parts)
- Microwell plate tracker - Unique built-in tracker for 96 and 384 well plates guides the user to pipette into the correct wells
- Applications PCR and other DNA/RNA techniques, ELISA, Protein analysis and Cell culture
- Calibration adjustment in 1, 2 or 3 points

Picus®

Proline® Plus Mechanical Pipette....Durable and Dependable

The Proline® Plus pipette family offers a wide variety of both fixed and variable volume models as well as a unique combination of novel and patented features. High quality and light pipetting forces provide a pleasant pipetting experience. The Proline® Plus with robust design is suitable for varied every day laboratory applications. CE Marked, IVD Directive 98/79/EC, 2 year warranty.

Key Benefits:

- Reduced pipetting forces prevent RSI and improves results
- Accurate and precise
- Contamination free pipetting with Safe-Cone Filters
- Robust design
- Materials have high chemical and UV-resistance
- The easiest pipette to clean and maintain
